Transport in Riga:

The word on the street is... that if you were not born here, then you have little hope of ever understanding how the Bus (39 routes), Trolley bus (23 routes) & minibus (100's of routes) system works... So we did not attempt to include these on this map. Sorry but... so walk! Or you can try to rent a bike here.... But watch out as the locals have the worst 'bad driver' record in Europe & one is allowed to drive drunk! (NOT) The trams are shown on the map! The airport bus (21 & 22a) is a half hour trip... Now some basic outlines on getting around, daily from 5.20 till approximately 23.30. Some routes have a night service every hour. You buy your tickets on board from the plain clothes ticket vendor at a cost of 20 santimes... 1 Lit at the time of print was worth about 1.45 kuru & there are 100 santimes in every 1 Lit. Just get on board & wait for them to come over to you. As usual if you want to spend too much money then use taxi's, always agree the price before boarding. As then is thieves! The Red taxi's are the best of a bad lot...
